

International Journal of Co-operative Accounting and Management- Call for Papers

Special Issue - Co-operatives in Costa Rica

Together with guest editors, Professor Jorge Campos, FUNDEPOS - Alma Mater University, Costa Rica and Dr. Miguel Rojas, Université de Moncton, Canada, we are issuing a call for papers that focus on co-operatives and credit unions in Costa Rica.

Costa Rica's co-operatives are in a vast array of industries providing goods, services, employment, and contributions to all regions' and the nation's economy.

While we welcome papers that focus on any aspect of co-operative governance, management, or operations in Costa Rica, we are particularly interested in receiving papers that explore Costa Rican co-operatives' contribution to sustainability, the Sustainable Development Goals (SDGs), measurement or reporting on sustainability, and/or accounting practices for sustainability.

The papers may be submitted in Spanish or English and will be published in that language. Submission deadline: **October 31, 2023**

Spanish: Prof. Jorge Campos,
